BUDAPEST SEMESTER IN COGNITIVE SCIENCE:
Philosophy to Neuroscience
for undergraduates

A STUDY ABROAD PROGRAM IN ENGLISH FOR US AND INTERNATIONAL STUDENTS

Program Information and Call for Students
last updated the 14th October 2015, replacing earlier versions.

Eötvös University, South Science Building, entrance

Program Home Page: http://bscs-us.org
BOARD OF DIRECTORS AND PROGRAM STAFF

General Director: George Kampis, Ph.D., D.Sc., Dr. Habil., Professor and Chairman of History and Philosophy of Science, Eötvös University, Budapest, Hungary
gk@hps.elte.hu

Co-Director: Péter Érdi, Ph.D., D.Sc., Dr. Habil. Henry R. Luce Professor of Complex Systems, Director, Center for Complex Systems Studies, Kalamazoo College, MI.
perdi@kzoo.edu

US Director: Anthony (Tony) P. Chemero, PhD, Professor of Philosophy, University of Cincinnati, OH
anthony.chemero@uc.edu

Founding US Director: John Bickle, Ph.D. Professor and Head of Philosophy and Religion Dept., Mississippi State University, MS.
john.bickle@msstate.edu

Program Chair: László Ropolyi, PhD. Assist. Professor, History and Philosophy of Science, Eötvös University, Budapest, Hungary
ropolyi@hps.elte.hu

Hungarian Coordinator: Ms. Ildiko Pieczka, Postdoctoral Fellow, Eötvös University, Budapest, Hungary +36 20 348 5858, pieczka.i@gmail.com

Postal Address: BSCS, Department of History and Philosophy of Science Eötvös University, Budapest, Hungary H-1117 Budapest, Pazmany Peter s. 1. Tel./FAX: +36 1 372 2924

US Coordinator: Ms. Judit Hegedüs, MSc, Kalamazoo, MI, jhegedus@kzoo.edu

All inquiries: Director’s Office, bscs@bscs-us.org

COLLABORATING INSTITUTIONS AND BOARD MEMBERS

Kalamazoo College     Prof. Robert (Bob) Batsell
Carleton College      Prof. Kathleen M. (Kathie) Galotti
Mississippi State University Prof. John Bickle
Hokkaido University  Prof. Ichiro Tsuda
University of Vienna   Prof. Markus Peschl
University of Sussex   Prof. Ronald Chrisley

HISTORY OF THE PROGRAM

The BSCS program for US and international students was established in 2003 upon the joint initiative of the three founding Directors, John Bickle, Péter Érdi and George Kampis, offering Semesters since 2004. In addition to US students, the program regularly enrolls part time and full time students from Hungary and the surrounding region. Home institutions of BSCS alumni include Carleton Coll., Reed Coll., Northwestern U., Kalamazoo Coll., U. Cincinnati, Binghamton U., Birmingham Southern Coll., U. Southern Connecticut, Dartmouth College, Vassar College, Franklin and Marshall, UC Berkeley, Middlebury College, Bates College and others. In recent years, the Program has been upgraded with improved facilities ensuring enhanced benefits to students. In the framework of BSCS, extended services with higher value added are available to students on the basis of individual agreements with selected sending Universities and Colleges. Starting January 2012, Tony Chemero has replaced John Bickle as US Director.
FRAMEWORK

OBJECTIVES AND SCOPE

The Budapest Semester in Cognitive Science (in short BSCS) is an undergraduate study abroad program for students from the US and other countries aimed at broadening their understanding of cognitive science from an interdisciplinary perspective. Lecturers of the Program are distinguished experts with noteworthy international research and teaching experience.

AFFILIATION WITH EÖTVÖS UNIVERSITY

The Program is run in Hungary by the Hungarian Cognitive Science Association (www.makog.hu) and on the US side by BSCS-US LLC, Kalamazoo, MI and is affiliated with Eötvös University of Budapest (Hungary) via a bilateral contract authorizing BSCS to use the name and the facilities of the University. Academic supervision is provided by the Department of History and Philosophy of Science of Eotvos University that also assumes responsibility (http://hps.elte.hu).

THE UNIVERSITY

Eötvös University (pronounced Ötvösh, 'o' as in German) is Hungary's leading science and Liberal Arts University. Founded in 1635 by Cardinal Péter Pázmány as a Catholic institution, the University owes its name to Baron Loránd Eötvös (1848-1919), an eminent statesman and physicist with considerable reputation in his own time. He was first to provide compelling evidence on the equivalence of gravitational and inertial mass, as early as in 1889. Today, the University has more than 30,000 students and is dispersed in several locations and buildings in the bustling Budapest downtown. The most recently built facility is the Lagymanyos Campus where BSCS courses are held (hereafter Campus). The University’s home page provides further details and background information, please visit http://www.elte.hu/en.

HIGHLIGHTS OF BENEFITS

• STUDY ABROAD AND EXPLORE EUROPE - AT A REASONABLE COST

The key benefit provided by this Program to students is the opportunity to complete a semester abroad with a high level academic content that is recognized by the sending institution and at the same time requires a significantly more modest financial commitment than a semester undertaken in the US or in Western Europe, due to the lower living costs incurred in Budapest.

• CULTURAL EXPERIENCE

The Program provides a very important additional benefit for students, namely the opportunity to experience life in Hungary and in the Central and Eastern European region in a safe and assisted way. Students and faculty have a very diverse background, and a significant number of them come from Eastern Europe.

• GATEWAY TO VIENNA, PRAGUE, AND THE REST OF EUROPE

Hungary is a member of the European Union. Budapest is located just 250 kilometers (155 miles) away from Vienna and 300 kilometers (185 miles) from Prague, making these wonderful cities, along with many other European destinations easily accessible and perfectly suitable for a long weekend getaway. BSCS provides assistance to students who wish to organize such visits within Europe during their stay.
CALL FOR STUDENTS

The 2016 Call for Students is available starting from October 2015. The deadline for applications in 2016 is April 15. Early applications until December 15, 2015 (see “How to Apply”). Interested students may wish to contact the US Coordinator (jhegedus@kzoo.edu) and all applications should be submitted to bscs@bscs-us.org. The interested are also invited to visit the BSCS Web page http://bscs-us.org for additional information.

BASIC INFORMATION

OBJECTIVES
The Program envisages providing:
• an introduction to cognitive sciences at an undergraduate level;
• safe and assisted experience of living in a European environment;
• an opportunity to gain insight into Hungarian and European culture and history, as well as to acquire an optional knowledge of the Hungarian language.

LANGUAGE
All courses are taught and all communication is conducted in English.

TUITION FEE
The Program operates on agreements with various Colleges and provides different services as per agreement. For individual (self-paying) applicants the tuition fee for 2016 is USD 7,000 (see also Stipends).

STIPENDS
For students whose social conditions do not permit them to pay a full tuition fee as well as for students from eligible countries, a stipend (from the practical point of view: a partial waiver on the tuition fee) is available upon request. Stipends are awarded by the Board of Directors on a case-by-case basis. Together with the request for a stipend, a proof of parental income and any further financial aid obtained is required. Students should inquire at their local universities and organizations for additional support.

WHAT IS INCLUDED IN THE TUITION AND WHAT IS NOT
The tuition fee includes:
• a 5-day Course Orientation upon arrival
• courses and course handouts as described separately
• high speed Internet access at dorm and campus (quality varies)
• two weekend excursions within Hungary
• Hungarian language course during the Semester
• cultural courses and other cultural programs, including one ticket for a major cultural event e.g. at the celebrated Opera House in Budapest.

The tuition fee does not include:
• accommodation
• visa and foreigner registration, passports, photographs, required health insurance
• travel from home to Budapest and back
• travels within Europe
• health insurance and other insurances
• local transportation costs
• telephone bills, medical costs, damage reparations, etc.

Based on individual agreements with selected sending universities and colleges, additional special packages of service can be provided to students upon request.

ACCOMMODATION

The accommodation offered by BSCS for a separate cost is in one of the regular student dormitories of Eötvös University (simple rooms in good condition, 20 minutes travel or walk to Campus). Prices for the full 2016 Semester are 1020; 1780 and 2430 USD in 3; 2; or 1 bed/room dorms, respectively. Dorm availability changes annually and dorm allocations may shift. Room choice is limited; student needs are satisfied on a “first come first served” basis.

Currently, BSCS students are accommodated in historical Eötvös Collegium:

1118 Budapest, Ménesi út 11-13 (phone: +36 1 209 0615, FAX +36 1 209 2044).
Web: www.eotvoscollegium.hu

Eötvös Collegium

NO-REFUND POLICY

The Program entails fixed expenditures (including lecturers’ honoraria, costs of excursions etc.) and is fully tuition-driven. As a general practice therefore, we apply a strict no-refund policy vis-à-vis all officially enrolled students.
ACADEMIC INFORMATION

STUDENT STATUS
BSCS students obtain student status at Eötvös University, with a full access to Eötvös’s student facilities. The student card is a useful asset in buying transportation and museum tickets.

FACULTY AND COURSES
The BSCS Faculty and courses offered are detailed separately.

TEACHING AND RESOURCES
Students are not required to purchase textbooks for the courses (with the exception of the language courses). All courses are based on the delivered lectures. Teaching material is developed (or, in the case of readings, collected) by the faculty and distributed to the students at no additional costs. Classroom teaching is supplemented by mandatory reading materials and by further assignments (such as Internet or library-based student research) outside of class hours.

Resources available to students include a library (at CEU, the Central European University, www.ceu.hu) with a number of relevant scientific publications and reviews in English, as well as a few PCs with permanent Internet access. Internet is also available in the buildings and free WiFi is accessible in the majority of University campus locations including the dorm (quality varies).

MOODLE E-LEARNING PLATFORM
The main vehicle of structured course communication is the BSCS Moodle e-learning platform at http://moodle.bscs-us.org (login provided to BSCS students and teachers).

CREDITS TRANSFER AND TRANSCRIPT
Transcript: Every BSCS student attending at least 90% of the classes and meeting the requirements of each examination receives a Certificate from Eötvös University demonstrating the duration and other specifics of the courses attended as well as the grades obtained. US compatible official transcripts are also provided for all completed courses (see sample model in the Annex).

Credits: Students’ home universities typically require the achievement of credits as result of a study abroad stay. In the case of doubt, the acknowledgement of earned credits by the students’ home university must be negotiated in the application phase. BSCS’s own credit system is fully compatible with the credit system of Eötvös University, which strictly follows the ECTS (European Credit Transfer System). For official ECTS information, please consult: http://ec.europa.eu/dgs/education_culture/publ/pdf/ects/en.pdf

In the ECTS framework, a one-semester course with 20 contact hours typically earns 2 ECTUs (European Credit Transfer Units). Accordingly, the entire BSCS semester earns a total of 24-30 ECTUs (see separately; see also “Grades” below). The 20 contact hours are equivalent to 1.4 US semester hours (for 14 week US semesters) and this allows a clear conversion of transcripts to US credit units.

To help credit transfer with US Colleges, in BSCS we have introduced major course codes and a grouping of courses into corresponding classes for a US style crediting. The four composite classes are Philosophy of Cognition - PHIL305; Neural Bases of Cognition - NEURO305; From Cognitive Development to Consciousness PSYC305; Foundations of Cognitive Science IDSY305. Each class with a 305 code earns 4.2 US semester hours and can be credited accordingly.

QUALITY CONTROL
Since 2003 the main quality control is exercised by the Board of Directors and by Eötvös University. The Dept. of History and Philosophy of Science has received “excellent” grades during the last national Teaching and Research Quality Assessment in Hungary. A further component of
surveillance is exercised through the US Director and the students’ home institutions. Since 2004, four on-site visits were performed by US College administrators or faculty, who approved the program. The most recent of these visits took place in 2012 and in 2015, appraisal can be found online at the BSCS home page. Additional on-site audits are always welcome by the Board.

EXAMINATIONS

The main form of assessment is a written or oral examination at the end of each course. Students receive a grade for each examination as well as a final grade (based on the average of the grades obtained) in the Certificate.

Written examinations take the form of a test or a short essay. An oral examination is conducted in the form of a dialogue between the teacher and a student, where, as a general rule, the student may take time to prepare his or her answers. Oral examinations at Hungarian universities are open to the public (practically: to fellow students) thus ensuring transparency.

GRADES

In Hungary, grades are weighted on a scale of five, ranging from 1 to 5, with 5 indicating the highest and 1 the lowest grade: 5 stands for “excellent”, 4 for “good”, 3 for “mediocre”, 2 for “satisfactory” and 1 “unsatisfactory/fail”. (This directly translates to an A to F scale.)

Eventual equivalence issues arising between the various national grading /credit systems and the Hungarian should be consulted with the Student Advisor and the Study Abroad Office of the student’s home institution and with the Program Chair of BSCS. In most cases the equivalence between the Hungarian and various other grading systems can be easily established.

ELIGIBILITY

The Program is open to undergraduate students of all disciplines with a sufficient personal maturity to adapt to a new environment and a foreign society. Consequently, any undergraduate student of a University or College of good standing, who by the time of the start of the Budapest Semester has completed the first two semesters of his/her studies, is eligible to enroll in the Program. Students from any academic background are welcome, however, familiarity with one or more of the following disciplines is likely most conducive to completing a successful semester in the framework of BSCS: computer science and mathematics; natural sciences; philosophy and psychology. Students from other disciplines should contact the BSCS Program Chair before application time in order to discuss the compatibility of their academic background and expected benefits to be derived from completing the Program.

The selection of students takes place on a competitive basis, with a record of previous academic results constituting the sole selection criterion. The general minimum entry requirement at application time is a US grade point average (GPA) of 3.0. Students with a GPA lower than 3.0 should inquire with BSCS Directors on the possibility of a waiver.

HOW TO APPLY

Form sheets for application are available at http://bscs-us.org. Applicants are requested to supply a recommendation from appropriate faculty. Application deadline for 2016 is April 15, 2016. Applications should be sent in email to: bscs@bscs-us.org.

“Early bird” applications: Applications arriving before December 15, 2015 are entitled to a 10% reduction in the tuition fee.

Applications sent via e-mail must be accompanied by a signed hard copy of the signature page (included in the downloadable application form) sent by airmail or surface mail to:
Professor George Kampis,  
Dept. of History and Philosophy of Science  
Eötvös University, Budapest  
H-1117 Budapest, Pazmany Peter s. 1/C  
Hungary

FOR MORE INFORMATION
For any further information on the Program, kindly contact the US Coordinator, Ms. Judit Hegedus (jhegedus@kzoo.edu) or the US Director, Prof. Tony Chemero (anthony.chemero@uc.edu).

COURSE INFORMATION

COGNITIVE SCIENCE
Cognitive Science is a multidisciplinary approach to the human mind. It is sometimes considered a new “super-science” in the sense that it offers a common platform and a common language for numerous traditional disciplines ranging from biology and brain science to computer science to linguistics and philosophy. The benefit of studying cognitive science lies in the fascinating integrative world view that it represents, thus enriching the disciplinary knowledge of the student’s own academic field. Successful completion of BSCS enables students to pursue graduate studies in the field of cognitive sciences in a later stage of their academic career.

GENERAL TIMING & THE SEMESTER SYSTEM
Eötvös University runs a genuine two Semester system, consisting of two independent 14-week Semesters. The Spring Semester runs from early February to mid-May, while the Fall Semester stretches from early September to mid-December. This Semester System fits well into the US “Long-Term Study Abroad” programs. The BSCS is traditionally held in the Fall Semester of each year, since 2003. In the year 2016, the core Program dates are:

September 5 – December 9, 2016.

An Independent Research Module (see description below) is available in January 2017.

COURSES OFFERED IN THE FRAME OF BSCS
Every course is designed for the non-specialist student who has little or no prior familiarity with the given subject but is equipped with curiosity and is adequately intelligent to absorb new concepts, methods, and modes of thought.

The Department of History and Philosophy of Science, which hosts BSCS, has been providing service teaching at the Science Faculty of Eötvös since 1994. The Department’s students mix in an average course and represent all disciplines. The Department has vast experience in handling various student backgrounds, interests, and levels of competence within a single course. BSCS courses have been designed and Professors have been selected to fit these criteria without compromising academic quality.

BLOCK COURSES SYSTEM
BSCS is based on a block courses system. A block course means a one-week (i.e. 5 days), 5 hours per day, intensive course of 20 contact hours altogether (includes 4 days of teaching, and consultation as well as exam on the fifth). All BSCS block courses come in the form of lectures (occasionally accompanied with independent student work).
Each BSCS course is a block course except some special courses (see below). Classes of the special courses (e.g. Hungarian Language and Culture) are held in the afternoon. To a limited extent blocks may move within the block course system without prior warning.

Block courses are not uncommon at Eötvös and are generally welcomed by the students because of their highly concentrated character. A block course ends with an assessment in the form of typically a written or oral examination.

STRUCTURE OF THE COURSES

COURSE SCHEDULE
Classes are Monday to Friday, 9:00 – 13:30. Location is in North or South Science Building, to be announced. Map is available at http://hps.elte.hu/BSCS/. Breaks are from 10:30 to 10:45 and from 12:15 to 12:45. Each week covers one course, with examination on Friday.

• ORIENTATION WEEK (1. WEEK) Required, 0 (zero) credit. Personal introduction, introduction to Hungary and Budapest, to the University and its facilities, to the specifics of the local educational system, how BSCS works, timetables, etc. Includes a 10-hour intensive course of the Hungarian language.

• REGULAR COURSES (2-13. WEEK) All regular courses are required. They are 2 ECTS credits worth each, equivalent to 1,4 US standard semester hours (see CREDITS TRANSFER AND TRANSCRIPT above, for US equivalence). The table (next page) summarizes regular course information and their lecturers for 2015 (the 2016 credits are planned to be identical).

• ADDITIONAL SPECIAL COURSES INCLUDED IN THE PROGRAM
  Hungarian Language  2 ECTS credits, 1,4 semester hour compulsory or elective
  Hungarian Culture  2 ECTS credits, 1,4 semester hour compulsory or elective

• OTHER SPECIAL COURSES INCLUDED
  BSCS students are entitled to take any undergraduate course offered by the University not specifically designed for BSCS. More specifically, in each Semester the University offers several courses, some in English or other major languages, for which no special prior requirements other than student status is necessary.

  The catalogue of these courses for the current Semester is available on Eötvös’s Intranet, and is made accessible for BSCS students during Orientation upon request. Usually, special courses begin one or two weeks after Semester start (in the 14-week semester, 12 weeks as a minimum are required for credit).

MAXIMUM NUMBER OF CREDITS
To keep the students’ work focused, no BSCS student is allowed to take more than 32 ECTUs. The offered semester hours for the core semester amount to 17.2 semester hours; and for the regular Hungarian language and culture courses 2.8 semester hours can be earned. As for the optional Independent Research Module, 5.6 semester hours can be credited.

OTHER DEPARTMENTAL CONTACTS
BSCS students are encouraged to seek contacts (assisted by the Program) within Eötvös University’s Research Departments related to the students’ own main fields. While this is not a part of the formal requirements of BSCS, prior experience shows that informal contact between guest students and other research Departments tend to produce fruitful results.

Eötvös University has an impressive record of accepting guest students at all levels in various disciplines and in a large number of international programs.
INDEPENDENT RESEARCH MODULE

The BSCS Semester covers four months. For students who wish to earn more credits or wish to spend more time in a study abroad arrangement, BSCS offers an Independent Research (IR) package.

IR can be taken consecutively to the BSCS semester or separately as a summer program. The cost of IR in 2017 is USD 1400. (Again, individual agreements with selected sending universities, increased value added service pack can be provided.) Within IR, students are placed in various Eötvös research Departments according to their majors and receive research tasks suitable for their general background.

IR is available in conjunction with BSCS or separately and under identical conditions (student status, dormitory, infrastructure etc.). IR dates for the 2015 BSCS Semester are from the 1st to the 31st January 2017.

The IR module involves 8 contact hours per day and can be accounted for 50% of the regular credit system; therefore the full Independent Research module represents a 5.6 semester hour's workload.

**PROFESSOR ÁDÁM MIKLÓSI**  
GUEST FACULTY IN 2015:

Dr. László Négyessy (Neurobionics Research Group, Hungarian Academy of Sciences), Dr. Marieke van Rooij (Delft University of Technology), Mihály Bányai (KFKI RMKI Budapest), Dr. Zsófia Zvolenszky (ELTE Budapest, Department of Logic).

RESIDENT SECRETARY

BSCS employs a Resident Secretary who is responsible for all administrational matters and all contacts during the students’ stay in Hungary and while they are studying in the BSCS. She is also the main contact for the parents (and families) of the students. The Resident Secretary is fluent in English.

The Resident Secretary has office hours every day 13:30 – 14:30 (in room 1.711) but she is available at all times, 24/7 in case of emergency during the whole Semester of BSCS. Please avoid calling the Resident Secretary outside the Semester. In all off-Semester matters consult the US Coordinator or the Program Directors. The name, email, and cell phone number of the Resident Secretary is:

Ms. Ildiko Pieczka, Postdoctoral Fellow, Eötvös University, Budapest, Hungary
+36 20 348 5858, pieczka.i@gmail.com
VISA AND REGISTRATION INFORMATION

US citizens currently need no Visas to Hungary. Accordingly, US students on BSCS are not required to have a Visa (non-US citizens please inquire).

All foreign students and all foreigners visiting Hungary for more than 90 days must register with the Office of Immigration and Nationality in Budapest (http://www.bmbah.hu/). Accepted BSCS students will be informed about the necessary documents and will be assisted when in Budapest. Having a Visa does not speed up or change the registration process in any way.

BSCS staff provides full assistance with the registration in Budapest. Registration currently involves a fee of ca. 75 USD, to be paid up front.

For general information about traveling and staying in Hungary, US students may wish to consult the Hungarian Embassy in the US:

Embassy of Hungary
Department of Consular Affairs
3910 Shoemaker St., NW
Washington, DC 20008
(202)-362-6730
http://washington.kormany.hu/consular

ARRIVAL

Program representatives will meet students upon their arrival (airport or rail station), provided that come in pre-arranged times (usually this means certain hours of the weekend before program beginning). Please note that this is a general policy and BSCS cannot, as a general rule, pick up students arriving at random times, except in emergency or otherwise unexpected situations.

It is vital that the organizers in Budapest are informed about students’ travel well ahead of time. Students are requested to forward their travel itinerary to the Resident Secretary as soon as they become available.

Should a student’s arrival in Budapest be delayed or affected by any unforeseen circumstance, Ms. Ildiko Pieczka, +36 20 348 5858, pieczka.i@gmail.com needs to be contacted.

ASPECTS OF DAILY LIFE

THINGS TO BRING ALONG

Students should not forget their passports, air tickets, at least one major credit or debit card, and a sufficient amount of money in cash and/or travelers checks to cover immediate expenses upon arrival. It is advised that students bring along their laptops.

It is important that students bring an ample supply of any medicine they frequently use, as well as shoes and clothes that are appropriate for all seasons. Dormitory rooms come completely furnished, and are supplied with bed linen, kitchenware, etc. and further necessary items can easily be found in shops.

Thick items, such as sweatshirts, take two to three days to air dry as dryers are rarely used in Hungary. The dorm is equipped with washing machines. Towels and other personal hygiene items should be arranged for by the students themselves. While traveling, all forms of ID, cash, and a week’s supply of any vital medication should be kept in the student’s carry-on luggage. Although unlikely, checked-in baggage might be placed on a wrong plane or fail to make the
connecting flight. Before check-in all luggage should be equipped with a label featuring the student’s final destination, as follows:

- Budapest Semester in Cognitive Science;
- Eotvos University, Department of History and Philosophy of Science,
- H-1117 Budapest,
- Pazmany P. s. 1/C,
- Hungary.

ELECTRICITY

The voltage used in continental Europe is 220 Volts. Also the plug is different. This renders most American appliances useless unless they are convertible, battery-operated or you have an adapter. In the US, European adapters can be bought at every major electricity shop. Note that the outlet geometry is also different. Outlet adapters also exist that switch between the different systems and are available in the US for a few dollars. Today most general use electronic devices (such as laptops, portable CD players etc.) come equipped with a built-in conversion system between 110/220 Volts (but not between the mechanical outlet geometries). In such a case all you need is the mechanical adapter. In case of doubt, students should check their devices and consult a member of the Program staff in advance.

CLIMATE

Climate in Budapest is similar to that of other cities with continental weather at similar latitude in Europe (e.g. Paris, Vienna, or Munich). It can be quite windy near the river Danube (next to the campus). It should be noted that in Europe, temperature is measured in Centigrades. Zero Centigrade is 32 Fahrenheit, and every 10-Centigrade difference makes another 18 Fahrenheit (i.e. 50 Fahrenheit is 10 Centigrade, 68 F is 20 C, etc).

CURRENCY

Hungary is a member of the European Union, but not in the EURO currency zone. The Hungarian currency is called Hungarian Forint, or Forint (Ft) for short. As a general rule, students should not carry much Forint in cash, as there are many ATM's in the city (a few of them directly on the Campus). ATMs also tend to give a good exchange rate. You can exchange dollars or travelers checks to Forints at the airport, rail station, or any of the hotels or banks in Budapest. There remains a currency black market in Hungary, and there is also a good deal of counterfeit currency in circulation; students are strongly advised not to trade currency with strangers.

Major international credit cards (in particular, MasterCard and Visa) are accepted at many places, including most restaurants, bookshops, and food stores. Further information is found in the welcome package.

Personal checks, cashier checks, money orders, etc., cannot be readily exchanged and are in limited use in Hungary. International banking is quite slow. Although you may deposit a personal check at some banks, it may take several months (!) until the check is cleared. It is a good idea to bring some personal checks along in case you have to mail away for something like a GRE registration. It is not a good idea to exchange all your money at once. The bank will convert Forints back to USD but will charge you again for the transaction. Exchange rates vary day-to-day reflecting changes in the international monetary market.

GENERAL GUIDES

Good information pages about student life in Budapest:

- http://budapeststudent.com/
Further information, such as how to buy a monthly student ticket, how to get a cell phone, etc., are provided during Orientation Week which is compulsory for Program participants or found in the welcome package. A general tourist site is http://budapestinfo.hu/home_en.html. Also, you may wish to contact http://hps.elte.hu/BSCS/ for additional information.

ENGLISH ON THE STREET
While not too many Hungarians speak foreign languages, it is possible to get by with English. One is likely to find at least one English-speaking person almost everywhere. A handful of basic Hungarian words will help out in most real-life situations. People tend to be co-operative and friendly towards foreigners.

MEALS
BSCS students should rely on the choice of available shops and restaurants in this respect. Besides, the Dormitory offers a student kitchen in the common area. The Orientation Week gives detailed information about on-campus student restaurants, nearby supermarkets, food stores, etc.

Special needs such as vegetarian, cholesterol-free, or religiously approved (Kosher, Halal, etc.) food is increasingly common in Hungary and should be obtained relatively easily at specialty places (please inquire). Living costs are relatively low in Hungary by most Western standards. For comparison, an average daily shopping may cost 2500 Forint (ca. 9 USD), and dinner in a reasonable city restaurant starts in the same range. A complete lunch in a student restaurant costs ca. 800 Ft (ca. 3 USD).

PUBLIC TRANSPORTATION
The public transportation system in Budapest is safe, cheap, and very well spread throughout the city. The student package contains necessary maps and descriptions. Tickets are valid for all public transport vehicles: subway, buses, trams, electric street cars (“trolley bus”). Transportation maps on the Internet are available from http://hps.elte.hu/BSCS/.

For accessing any city destination from the Airport, the best value for money is the “Airport Minibus”, which operates as a multi-customer taxi, and costs ca. 6000 Forints (ca. 22 USD).

GENERAL LIVING COSTS DURING THE PROGRAM
Using the above data and related estimates, as well as experiences of our students, nonbinding estimates for general living costs during the semester are:

- Food: 2,000.00 USD
- Phone: 300.00 USD
- Cultural programs: 350.00 USD
- Personal costs including local transportation: 450.00 USD
  (International travels are not included).

Note that all these costs can vary greatly due to different backgrounds and needs. To compare, an average Hungarian student lives on c.a. 50,000 HuF/month, i.e. ca. 1,000 USD per semester.

MAIL AND PHONE
To call a telephone number in Budapest from abroad, use international call prefixes. From the United States, you prefix the number with 011-36-1. Dialing 011 summons the international switchboard (from ATT), whereas 36 is the country code for Hungary, and 1 is the city code for Budapest.
Notice the difference in time zones. Budapest has Central European Time (CET, i.e. GMT+1), which is 6 hours ahead of Eastern Daylight Time (New York). For example, when it is noon in New York and 9 a.m. in San Francisco, it is 6 p.m. in Hungary. At 6 p.m. in New York, it is midnight in Budapest.

To make a call from Budapest, you need to dial 00 for the international switchboard, then the country code (which is 1 for the US and Canada) followed by the area code and the telephone number without pauses.

Your mailing address in Budapest (for letters, packages or FedEx, etc.) will be:

Name_of_Student  
Budapest Semester in Cognitive Science  
Department of History and Philosophy of Science  
Eotvos University  
H-1117 Budapest  
Pazmany P. s. 1/C.  
Hungary

SAFETY AND SECURITY

By most standards, Budapest is a safe city, except for a few distinct areas and at certain hours. The most typical street crime is theft at a crowded place, and fraud by black market dealers. Common sense is usually sufficient to avoid or to solve such situations. Open threat or unprovoked violence towards strangers is very rare.

The student package (distributed upon arrival) contains Police phone numbers (English operator), as well as further information. The US Embassy home page in Hungary (http://hungary.usembassy.gov) explains the basics of safety in the city, together with the most typical criminal tricks (such as “fake police”, i.e. civilians playing police – bear in mind that real police ALWAYS wears a uniform and ALWAYS comes in 2) deployed against tourists and visitors on the street – most of the street tricts are highly international.

HEALTH AND CRISIS MANAGEMENT

In terms of public health and security, Hungary can be considered a highly safe country. Each BSCS student is required to hold a valid full health insurance that covers all accidents and usual medical treatments for the entire duration of their stay in the framework of the Program. Students arriving without proper health and accident insurance are required to obtain one at their own cost. If necessary, the Resident Secretary provides help and advice in this matter. In case of emergency or any crisis situation, the Resident Secretary or one of the emergency services provided below should be contacted.

INTERNET ACCESS

BSCS students have broadband Internet access on a few university PCs located in the Department, during opening hours on workdays between 9:00 am and 18:00 pm. Campus buildings also support wireless connections (standard Wi-Fi). Quality varies.

Many students use their own laptops in Budapest and BSCS students are encouraged to do the same.

SPORTS FACILITIES

The University Campus is still in expansion and relatively poor in terms of sports facilities at the moment.

Students should use public facilities. Please consult the Chair or the Resident Secretary for more details and advice. Budapest is a city which offers virtually all imaginable sports activities, from wall-climbing and skateboarding to paragliding and horse riding, most of them usually
available at low to reasonable costs. Students are advised not to forget about their gears and licenses, etc.

EXCURSIONS AND CULTURAL PROGRAMS

BSCS offers its students two weekend excursions, whose costs are included in the tuition fee. A weekend excursion is a two-day (one-night) trip to a scenic and historically relevant place in the country of Hungary.

The expected destinations of the first excursion are:

- Szentendre (http://en.wikipedia.org/wiki/Szentendre)
- Esztergom (http://en.wikipedia.org/wiki/Esztergom)
- Visegrád (http://www.visegrad.hu)

The expected destinations of the second excursion are:

Further excursions will be organized on a cost-effective basis to several neighboring countries to gain a genuine Central European experience. Individual trips can also be arranged for during the weekends. Assistance in the organization of such trips is provided by BSCS staff. Based on individual agreements with selected Colleges and Universities further value-added services can be provided. Arrangements of this kind underway with a number of institutions and is open to every college and university.

While BSCS does not offer organized cultural programs in Budapest, students are encouraged to organize programs on their own as they should be able to move about the city with ease after a comprehensive Orientation Week). Useful and informative websites exist in English, such as http://funzine.hu/ and should prove to be very helpful to students.

BSCS staff is also happy to give advice in terms of do’s and don’ts. Student dormitories close at 10 p.m., which puts a limit to independent student activity. Students who need personalized guidance to cultural programs or wish to be accompanied by locals should inquire at the Resident Secretary. Local Eötvös students who volunteer to assist foreign students can be easily found on prior notice.

DECENCY

BSCS students belong to the student community of Eötvös University and the University’s rules apply to them. Students are expected to conduct a decent student lifestyle. Resident BSCS staff monitors and helps extracurricular student activities in order to strictly keep this goal.

The University Campus is located in the downtown area of Budapest, a city of over 2 million inhabitants (2,5 million in the Metropolitan Area). It is important for students to be aware of their share of responsibility with regard to their behavior on Campus and in the country in general. Improper lifestyle, in particular with respect to the use of alcohol, drugs and delinquency of any kind cannot and shall not be tolerated. Every disciplinary offense will be reported to the student’s home institution.

EMERGENCY

The most important emergency phone numbers within Hungary are the following (no prefix):

- General Emergency number: 112
- Ambulance: 104
- Fire-fighters: 105
- Police: 107
- Domestic directory assistance: 198
- International directory assistance: 199
- Posting a telegram over telephone: 192
- Automobile club emergency service: 188
- Drug Stop Telephone Hotline: (+36 80) 505 678
Appendix: a sample transcript (watch out for changes when switching to an all-electronic system in 2014)

Sample Model Transcript (US) for 2012

This is to certify that the following student

Born in the country of __________________ on __________________ 19________

has fulfilled his/her university obligations in the Fall Semester:

(from the 3rd of September to 30th of November 2012, and

for the independent research module from the 3rd to 31st of January 2013)

of the academic year 2012/2013 at the Budapest Semester in Cognitive Science (BSCS) at Eötvös Loránd University (ELTE), Budapest, Hungary.

He/She has attended the courses and received the grades as given in the table hereunder

Total contact hours offered: 380
Total contact hours attended:
Total contact hours graded:
1 Contact hour is equivalent to a 50 min lecture in class.
Hours spent in Independent Research module are accounted at 50%.
Total number of units earned:
1 unit is equivalent to 10 ECTS standard contact hours, and
2 units are equivalent to 1.4 US standard semester hours. (calculated for a 14 week semester)
